Big Green Egg Grill (large) retail \$820

A complete outdoor cooker with unparalleled flexibility, the Egg can grill steaks and chops to the perfect degree of doneness, cooking at temperatures up to 750°F for steakhouse searing. But if fallin'-off-the-bone ribs or a tasty, juicy brisket is on your menu, the EGG will maintain a low temperature of 200° to 250°F for the low-and-slow smoke cooking that develops wonderful flavor while tenderizing the meat. Whether searing or slow cooking, prepare the entire meal on the grill by adding any of your favorite vegetables to the cooking grid. If you're longing for cornbread, biscuits, a freshly baked loaf of bread or even a warm pie or cobbler to complete your meal, the EGG bakes better than a brick oven.
