

leaving a legacy

Trees are as amazing as they are fundamental. They shade us from the sun, clean our air and water, and provide us with many products we use every day.

Without trees, our region would be barren, hot, dirty, and unattractive. The Land Trust is committed to **preserving our region's forests** and to planting new trees across our community.

Leave a legacy: Plant a Tree

You can **help make our community healthier** and more beautiful by planting a tree through the Land Trust. You pick from a variety of trees and planting locations (list and pricing on reverse side), and we'll plant your tree alongside a plaque with an inscription of your choice. **Your tree** will leave a **legacy** that will last for generations to come.

Ours is a region of spectacular, graceful beauty. Together, we can make sure it stays that way, **forever**

...preserving our natural landscape for the generations

PO Box 148 Augusta GA 30903 * 706-312-LAND

plant your legacy

1. Choose your tree:
